Occupational Health

Committed to high quality services for occupational illness and injury

Occupational Health

McLaren Oakland Occupation Health Services' capabilities are at the forefront of workforce health management, providing a range of flexible services. We partner with our customers to understand their unique business needs and build a solution that puts their employees first.

The facility is equipped to handle a wide range of occupational injuries, illnesses and examinations. Our providers are specially trained and certified in drug testing procedures required by national standards and are Certified Breath Alcohol Technicians (BAT).

We are dedicated to providing customized occupational health and wellness solutions that consistently deliver lower employee health costs, increased workforce productivity, lower disability costs, claim's and fewer lost work days.
