**FAMILY BIRTHING CENTER
 VISITATION POLICY.**

Thank you for choosing the Family Birthing Center at McLaren Macomb. We understand that this is an exciting time and you may have many visitors. Therefore, we ask that you join our commitment to keeping our patients and babies safe and comfortable by adhering to our visitation policy. We hope that you have a wonderful experience and choose McLaren Macomb for your future health care needs.

Visiting hours for postpartum patients are 8 a.m. – 8 p.m.

- Upon admission, the patient will choose a Care Partner who will act as part of the healthcare team. This representative will have 24-hour access to the Birthing Center (as indicated by a special bracelet) and will participate in discussions and decisions with the healthcare team.
- An alternative person may be chosen by the patient that will act as Care Support. This person will also have access to the patient during hospitalization, including the labor and delivery process.
- The Care Partner may stay the night with the patient. All other visitors, family members and the Care Support person will be asked to return during visiting hours.
- Children under 18 years of age are not permitted to act as the Care Partner, and are not permitted to spend the night.
- Children under 12 years of age are not permitted to the Family Birthing Center, unless the child is a sibling of a newborn.
- Each patient is allowed 4 visitors in addition to the Care Partner and Care Support person in the postpartum period. Visitors will check-in with the nurse or unit clerk prior to entering the patient's room.
- Visitors will be directed to the Family Birthing Center waiting room until the Care Partner advises that they are to visit the patient.
- Patients are expected to excuse themselves and return to the waiting room if asked by the patient or staff.
- To maintain a calm environment, please refrain from using loud voices and obscene or foul language.
- This is a non-smoking campus and all visitors are expected to adhere to the smoking policy of the hospital.
