This letter is to give you information only. No action is required on your part.

**Beneficiary Notification Letter – BPCI Advanced**

**Your Doctor or Hospital Has Joined Medicare's New Payment and Service Delivery Model**

Hello,

We wanted to let you know that your health care provider, McLaren Flint has volunteered to take part in our Centers for Medicare & Medicaid Services (CMS) Bundled Payments for Care Improvement Advanced Model (BPCI Advanced). This doesn't change your Medicare rights or benefits and you don't need to do anything.

**What are bundled payments?**

A bundled payment combines, or bundles together, payments that Medicare makes to your health care providers for the many different kinds of medical services you might get in a specific time period. In BPCI Advanced, this time period could include a hospital inpatient stay or outpatient procedure, plus 90 days.

**Why would Medicare bundle payments?**

Bundled payments are thought of as a "value-based" way to pay because health care providers are responsible for both the quality and cost of medical care they give. This is a relatively new way of paying health care providers compared to the "fee-for-service" way Medicare has traditionally paid, where providers are paid separately for each service they provide. Bundled payments encourage these providers to work together to provide better, more coordinated care during your hospital stay, or outpatient procedure, and through your recovery.

**Spec Info: Does BPCI Advanced mean for me?**

You're more likely to get even better care when hospitals, doctors, and other health care providers work together. In BPCI Advanced, hospitals, doctors, and other health care providers may be rewarded for providing better, more coordinated health care. Medicare will watch BPCI Advanced participants closely to make sure that you and other patients keep getting efficient, high-quality care.
