Cancer is the second leading cause of death in the United States. Lung cancer is the leading cancer killer in both men and women in the US.

SHOULD I OR A FAMILY MEMBER HAVE A LUNG CANCER SCREENING?

- I am between 55 and 77 years of age.
- I am a current smoker or quit smoking within the last 15 years.
- I have smoked at least 30 pack years.
A pack year is defined as smoking an average of one pack of cigarettes per day for one year. A person can have a 30 pack year history by smoking one pack a day for 30 years or two packs a day for 15 years.

How many cigarettes per day do you smoke? _____

Spec Info: _____ years have you smoked? _____

- I have not had lung cancer and I am asymptomatic (such as no new cough, weight loss, and/or hemoptysis).

If you answered yes to the above questions talk to your healthcare provider today about a Low Dose Cat Scan.
