This specialized team of doctors, and nurses, is fully dedicated to treating wounds, including many that have resisted healing after months and even years of traditional treatment. McLaren was the first area hospital to offer hyperbaric oxygen therapy and the care team uses only proven, advanced treatment techniques.

The types of wounds treated include:

- Vascular leg ulcers
- Diabetic foot ulcers
- Pressure ulcers
- Surgical or traumatic wounds
- Wounds caused by ulcers, cancer, radiation treatment, burns, infections and osteomyelitis.

Our Hyperbaric Oxygen (HBO) Therapy Programs have a long history of successfully treating:

- Diabetic wounds
- Complications from radiation therapy
- Chronic bone infections
- Non-healing skin grafts or flaps
- Crush injuries

Studies have shown that hyperbaric oxygen therapy increases an individual's ability to heal wounds. The use of HBO in combination with advanced wound care has been proven to prevent amputations. It's a thoroughly tested, FDA approved, completely safe and painless therapy that has helped thousands of patients heal faster and better than ever before.

McLaren Wound Care and HBO Therapy

McLAREN WOUND CARE PROVIDERS

Mark R. Williams, DPM, has been affiliated with the McLaren Wound Care Center since 2008. Dr. Williams earned his Doctorate of Podiatric Medicine from The Ohio College of Podiatric Medicine (Kent State University) in Cleveland before completing a three-year foot and ankle surgical residency in Houston, Texas. Dr. Williams is board certified by the American Board of Podiatric Surgery and is a Fellow of the American College of Foot & Ankle Surgeons.

Michael Egerberg, MD, is a general surgery specialist at the McLaren First Wound Care Clinic. Dr. Egerberg has over 10 years of experience in the medical field. He earned his medical degree from the University of Nebraska, College of Medicine. He has worked in the field of wound care for more than three years and has outstanding healing outcomes.

Born and raised in the Detroit Metro area, **Krista Schroeder, DPM** earned her Doctorate from Des Moines University College of Podiatric Medicine and Surgery. She then completed her podiatric surgical and reconstructive residency at St. Mary Mercy Hospital in Livonia, where she served as chief resident. Dr. Schroeder is a certified wound specialist physician.

Dr. Schroeder is a graduate of the University of Michigan in Ann Arbor where he completed his undergraduate degree in knowledge - movement sciences. He earned his medical degree from Des Moines University in Des Moines, Iowa. He then went on to complete a three-year surgical residency at Henry Ford Macomb Hospital in Clinton Township with an emphasis on trauma, head/neck reconstruction and minimally invasive surgery.
