Size:
Fold:
Finish:
Drill:
Misc Info:

A medical home is a trusting partnership between a doctor-led health care team and an informed patient. The Patient Centered Medical Home concept includes an agreement between the doctor and the patient that acknowledges the role of each in a total health care program.

Insurance Participation

We participate in many health plans. Some health plans have broader coverage for preventive care than others; some plans offer more choices. We encourage you to become familiar with your health plan coverage.

Lab Test Results

All patients should receive notification of abnormal test results within 48-72 hours of the ordering physician's review of the test results. Patients will receive notification of normal test results in the form of a post card by mail within 7 business days of the ordering physician's review of the test results.

Patient Centered Medical Home

Your doctor, your relationship

Together we can end every visit with clear instructions about expectations, treatment goals, and future care plans!
